AJAYI TAIWO JOHN

Full Stack Developer

Lagos, Nigeria | +234 916 065 0495 | ajayijohn19999@gmail.com
github.com/stopitmane | groovyjwttp-portfolio.vercel.app

PROFILE SUMMARY

Results-driven Full Stack & Mobile Developer with 4+ years of hands-on experience building scalable web and mobile applications. Proficient in Python (Django, Flask), JavaScript (Node.js, React, Angular), and mobile frameworks (Flutter, React Native), with a strong track record of delivering end-to-end solutions — from RESTful API design and third-party integrations to responsive front-end and cross-platform mobile experiences. Comfortable working across the stack with a strong emphasis on clean architecture, test-driven development, Firebase integration, and production-grade deployments.

TECHNICAL SKILLS

JavaScript	TypeScript	Python	Node.js	React
Django	Flask	Express.js	Laravel	Angular
Flutter	React Native	Firebase	REST APIs	PostgreSQL
MongoDB	Git	GitHub	HTML	CSS

PROFESSIONAL EXPERIENCE

Mobile App Developer · Bincom Academy · Yaba, Lagos — *Jul 2025 – Present*

- Designed and developed cross-platform mobile applications using Flutter and React Native, reaching over 15,000 active users.
- Collaborated with backend developers to integrate RESTful APIs built with Laravel and Node.js, ensuring seamless data exchange and performance.
- Implemented Firebase Authentication and Push Notifications to enhance user engagement and retention.

Backend Developer Intern · DON-CLEM LTD — *Feb 2025 – Jun 2025*

- Designed and built RESTful APIs with Django REST Framework, enabling seamless data exchange between frontend clients and backend services.
- Configured production deployments with Nginx as a reverse proxy and Gunicorn as the WSGI server, ensuring stable and scalable hosting.
- Implemented asynchronous task processing using Celery and Redis, reducing response times for long-running operations by offloading background jobs.

Junior Full Stack Developer · Enerx Ltd · Adeniyi Jones, Lagos — *Mar 2024 – Present*

- Designed and developed a multi-page exhibition platform using React.js and Node.js, serving real-world users in production.
- Contributed to the John SciTec Website frontend, implementing interactive features and responsive UI components with React.
- Authored automated test cases to ensure API reliability, increasing code coverage and adherence to project standards.
- Integrated third-party APIs and internal microservices, improving system interoperability and enabling new product features.

Full Stack Developer Intern · New Horizons — *Jan 2023 – Aug 2023*

- Developed a full-featured e-commerce platform using Django and React, including product listings, user authentication, and a complete checkout flow.

- Implemented a fully responsive UI with mobile-first design principles, ensuring consistent experience across devices.

PROJECTS

Freshcart (E-Commerce Platform) https://freshcart-candy-com.vercel.app/

- Full-stack Nigerian e-commerce platform with Django REST API and React frontend. Features product listings, cart management, Paystack payment integration, user authentication, and a responsive mobile-first UI targeting Nigerian consumers.

NaijaCart (E-Commerce) https://github.com/stopitmane/naijacart.git/

- Full-stack Nigerian e-commerce platform with Next.js, Node.js and React frontend. The project sharpened my backend skills and taught me the value of robust debugging and clear communication.

TimbuCloud Website https://timbucloudwebsite.vercel.app/

- E-commerce platform for Nigerian agricultural products. Built with React and Node.js, featuring category filters, responsive design, and optimized checkout flow tailored for local market needs.

Python Portfolio https://github.com/stopitmane/python-portfolio

- A collection of production-ready Python automation and scripting projects, each built with clean architecture, CLI interfaces, and zero external dependencies.

Crypto Tracker https://crypto-tracker-wttp.vercel.app/

- Real-time cryptocurrency price tracker using CoinGecko API and React with live updates, search, and favourites — demonstrates third-party API integration.

Blog Platform Backend https://github.com/stopitmane/blog-platform-backend

- RESTful backend built with Node.js and Express.js for managing blog posts, users, and comments, featuring JWT authentication, CRUD operations, and structured data flow.

CV Builder App https://cv-app-one-sable.vercel.app/

- Single-page CV Builder built with Angular and TypeScript, showcasing component-based architecture and reactive forms.

Book Review App https://express-book-reviewsteal.vercel.app/

- Full-stack app (Express.js, Node.js, MongoDB) for posting book reviews with CRUD functionality and JWT-based authentication.

Product Dashboard https://product-dashboard-task-drab.vercel.app/

- E-commerce admin dashboard built with TypeScript and React, featuring real-time inventory management and responsive data tables.

EDUCATION

Bachelor of Technology (B.Tech) — Biomedical/Medical Engineering · **Federal University of Technology, Akure (FUTA)**
Feb 2016 – Aug 2021

CERTIFICATIONS & TRAINING

- IBM Full Stack Software Developer *(IBM – Coursera)* [Certificate]
- Developing AI Applications with Python and Flask *(IBM – Coursera)* [Certificate]
- Python for Data Science, AI & Development *(IBM – Coursera)* [Certificate]
- Developing Back-End Apps with Node.js and Express *(IBM – Coursera)* [Certificate]
- Introduction to Software Engineering *(IBM – Coursera)* [Certificate]
- Introduction to Cloud Computing *(IBM – Coursera)* [Certificate]
- Introduction to HTML, CSS & JavaScript *(IBM – Coursera)* [Certificate]
- Getting Started with Git and GitHub *(IBM – Coursera)* [Certificate]
- Full Stack Web Development Internship *(New Horizons)* [Certificate]
- Website Development Program *(DON-CLEM LTD)* [Certificate]
- Python (Intermediate) *(Bincom Academy)* [Certificate]
