AJAYI TAIWO JOHN

Full Stack Developer

Lagos, Nigeria | +234 916 065 0495 | ajayijohn19999@gmail.com
github.com/stopitmane | groovyjwttp-portfolio.vercel.app

PROFILE SUMMARY

Specializing in high-performance web applications, secure backend systems, and scalable full-stack solutions with Python, Django, and React.

IBM-certified Full Stack Developer with expertise in building complete web applications from database design to user interface, focusing on clean architecture and modern development practices.

TECHNICAL SKILLS

JavaScript	**TypeScript**	**Python**	**Node.js**	**React**
Django	**PostgreSQL**	**REST APIs**	**Laravel**	**Angular**

PROFESSIONAL EXPERIENCE

Full Stack Developer (Apprenticeship) · Bincom Academy *Jul 2025 – Present*

- Collaborated on full-stack web development projects, working with cross-functional teams to build scalable applications.
- Integrated RESTful APIs built with Laravel and Node.js, ensuring seamless data exchange and optimal performance.
- Contributed to projects serving over 15,000 active users while following modern development practices and code review processes.

Backend Developer Intern · DON-CLEM LTD *Feb 2025 – Jun 2025*

- Designed and built RESTful APIs with Django REST Framework, enabling seamless data exchange between frontend clients and backend services.
- Configured production deployments with Nginx as a reverse proxy and Gunicorn as the WSGI server, ensuring stable and scalable hosting.
- Implemented asynchronous task processing using Celery and Redis, reducing response times for long-running operations by offloading background jobs.

Junior Full Stack Developer · Enerx Ltd · Adeniyi Jones, Lagos *Mar 2024 – Present*

- Designed and developed a multi-page exhibition platform using React.js and Node.js, serving real-world users in production.
- Contributed to the John SciTec Website frontend, implementing interactive features and responsive UI components with React.
- Authored automated test cases to ensure API reliability, increasing code coverage and adherence to project standards.
- Integrated third-party APIs and internal microservices, improving system interoperability and enabling new product features.

PROJECTS

Freshcart (E-Commerce Platform) https://freshcart-candy-com.vercel.app/

- Full-stack Nigerian e-commerce platform with Django REST API and React frontend. Features product listings, cart management, Paystack payment integration, user authentication, and a responsive mobile-first UI targeting Nigerian consumers.

NaijaCart (E-Commerce) https://github.com/stopitmane/naijacart.git/

- Full-stack Nigerian e-commerce platform with Next.js, Node.js and React frontend. The project sharpened my backend skills and taught me the value of robust debugging and clear communication.

Python Portfolio https://github.com/stopitmane/python-portfolio

- A collection of production-ready Python automation and scripting projects, each built with clean architecture, CLI interfaces, and zero external dependencies.

TimbuCloud Website https://timbucloudwebsite.vercel.app/

- E-commerce platform for Nigerian agricultural products. Built with React and Node.js, featuring category filters, responsive design, and optimized checkout flow tailored for local market needs.

.

CV Builder App https://cv-app-one-sable.vercel.app/

- Single-page CV Builder built with Angular and TypeScript, showcasing component-based architecture and reactive forms.

Product Dashboard https://product-dashboard-task-drab.vercel.app/

- E-commerce admin dashboard built with TypeScript and React, featuring real-time inventory management and responsive data tables.

EDUCATION

Bachelor of Technology (B.Tech) — Biomedical/Medical Engineering · **Federal University of Technology, Akure (FUTA)**
Feb 2016 – Aug 2021

CERTIFICATIONS & TRAINING

- IBM Full Stack Software Developer *(IBM – Coursera)* [Certificate]
- Developing AI Applications with Python and Flask *(IBM – Coursera)* [Certificate]
- Python for Data Science, AI & Development *(IBM – Coursera)* [Certificate]
- Developing Back-End Apps with Node.js and Express *(IBM – Coursera)* [Certificate]
- Introduction to Software Engineering *(IBM – Coursera)* [Certificate]
- Introduction to Cloud Computing *(IBM – Coursera)* [Certificate]
- Introduction to HTML, CSS & JavaScript *(IBM – Coursera)* [Certificate]
- Getting Started with Git and GitHub *(IBM – Coursera)* [Certificate]
- Full Stack Web Development Internship *(New Horizons)* [Certificate]
- Website Development Program *(DON-CLEM LTD)* [Certificate]
- Python (Intermediate) *(Bincom Academy)* [Certificate]
