Ajayi Taiwo John.

Full Stack Developer — Python · Node.js · TypeScript · React

johnajayi.bincom@gmail.com · +234 916 065 0495 · github.com/stopitmane · groovyjwttp-portfolio.vercel.app · Lagos, Nigeria

PROFILE

IBM-certified Full Stack Developer with production experience across the complete stack. Strong in Python and Node.js on the backend — REST APIs, Nginx/Gunicorn deployments, Celery/Redis task queues — and TypeScript/React on the frontend. GitHub portfolio spans Python, JavaScript, TypeScript, PHP, and Jupyter notebooks across real shipped products.

TECHNICAL SKILLS

Core: Python · Node.js · React · TypeScript · JavaScript · PostgreSQL · REST APIs

Also: Django · PHP · Laravel · Angular · Redis · Celery · Nginx · Gunicorn · Jupyter · Git · Docker

EXPERIENCE

Full Stack Developer (Apprenticeship)

Jul 2025 – Present

Bincom Academy · Yaba, Lagos

- Building full-stack applications within cross-functional teams following professional code review workflows.
- Integrating RESTful APIs with Laravel and Node.js for projects serving over 15,000 active users.
- Working across React frontend and backend API integration in a live production environment.

React | Node.js | Laravel | REST APIs

Backend Developer Intern

Feb 2025 – Jun 2025

DON-CLEM LTD

- Designed and built RESTful APIs with Django REST Framework, enabling seamless frontend–backend data exchange.
- Configured production deployments with Nginx as a reverse proxy and Gunicorn as the WSGI server.
- Reduced response times for long-running operations by implementing Celery and Redis for async task processing.

Django REST Framework | Python | Nginx | Celery | Redis

Junior Full Stack Developer

Mar 2024 – Present

Enerx Ltd · Adeniyi Jones, Lagos

- Designed and developed a multi-page exhibition platform using React.js and Node.js serving real-world users in production.
- Implemented interactive UI features and responsive components for the John SciTec Website.
- Authored automated test cases and integrated third-party APIs and internal microservices.

React.js | Node.js | API Testing | Microservices

PROJECTS

DevDoc AI AI

Live · GitHub

React · TypeScript · Claude AI

AI-powered code documentation tool — paste code and generate docs, READMEs, code reviews, explanations, or unit tests. Five modes, eight languages, custom TypeScript hooks, Anthropic API integration.

TaskFlow API PY

GitHub

Python · Django REST Framework · PostgreSQL · Render

Project and task management REST API — token auth, CRUD, custom actions (complete, assign, archive). Service layer pattern separates business logic from views. 9 passing unit and API tests. Deployed on Render with PostgreSQL.

Python Automation Suite PY

GitHub

Python · CLI · Stdlib Only

4 production-ready automation tools — smart file organiser with undo, website uptime monitor with email alerts, fluent CSV pipeline API, and live system health dashboard with sparklines. Zero external dependencies.

DevTrack TS

Live · GitHub

React · TypeScript · Custom Hooks

Developer productivity dashboard — Pomodoro timer (full state machine via custom hook) + typed task manager. Pomodoro count auto-increments on session complete. No external state library.

StandupLog TS Live · GitHub

React · TypeScript · localStorage

Daily developer standup journal with mood tracking, streak counter, tag filtering, and a stats view with mood distribution and tag frequency charts. localStorage persistence.

Freshcart Live · GitHub

Django REST · React · Paystack

Full-stack Nigerian grocery platform — Django REST backend handles auth and cart logic, React frontend with Paystack payment integration and mobile-first UI targeting Nigerian consumers.

Product Dashboard TS Live · GitHub

TypeScript · React · React Query · MUI

Fully typed admin dashboard — strict TypeScript interfaces, React Query for data fetching, multi-column filtering across 194 products. Every prop, hook and API response typed.

EDUCATION

B.Tech — Biomedical/Medical Engineering

2016 – 2021

Federal University of Technology, Akure (FUTA)

CERTIFICATIONS

IBM Full Stack Software Developer

12-course professional certificate (IBM – Coursera) · Docker, Kubernetes, Cloud, Microservices, CI/CD

- Developing AI Applications with Python & Flask (IBM)
- Developing Back-End Apps with Node.js & Express (IBM)
- Python for Data Science, AI & Development (IBM)
- Introduction to Cloud Computing (IBM)
- Full Stack Web Development Internship (New Horizons)
- Python — Intermediate (Bincom Academy)
- Introduction to Software Engineering (IBM)
- Website Development Program (DON-CLEM LTD)
